

Mr. Marty Trackman
Assistant Product Manager, Increment 1
Logistics Modernization Program

Mr. Marty Trackman serves as the Logistics Modernization Program (LMP) Assistant Product Manager for Increment 1. In this role, he oversees the management of the deployed/operational production baseline, as well as compliance and auditability statutory and regulatory requirements. Additionally, he leads the effort to transition services from the prime contractor to the Government for sustainment and development of the current system, server hosting, and residual legacy sustainment.

He joined the LMP Product Management Office (PMO) in 2006 as a Government Support Contractor, organizing, directing, and managing business area functional activities for Corporate Information Management (CIM). In this position, he played a critical role in the LMP second deployment in 2009. He then joined the Government, serving as the Chief, Logistics Management Division for the LMP, responsible for managing information assurance, technical infrastructure, legacy sustainment, customer support, deployment stabilization, and business transformation. In this position, he helped successfully manage the LMP third and final deployment in 2010. Prior to working with LMP, he held positions with various commercial companies as an accounting professional.

Mr. Trackman is an Acquisition Corps member, certified Level III in Program Management. He earned a Bachelor of Science in Business Administration from Northeastern University in Boston, Massachusetts.
